## PROJECTS

**Tastedit** | (Javascript, Python, React/Redux, PostgreSQL, Flask, Socketio, AWS, HTML, CSS) [Live](#) | [GitHub](#)

Tastedit is a Yelp-like platform focusing on user-shared reviews of individual dishes they've tasted

- Implemented real-time communication features using Flask-SocketIO, enabling users to receive immediate updates on reviews and interaction, enhancing user experience.
- Engineered a multi-step form interface for dish submissions using React, incorporating smooth transitions and animations to enhance user engagement.

**SoundCloud-Cloned** | (Javascript, Python, React/Redux, PostgreSQL, Flask, AWS, HTML, CSS) [Live](#) | [GitHub](#)

SoundCloud Cloned inspired by SoundCloud music platform where user can upload and share music

- Collaborated in a team to develop SoundCloud Cloned, utilizing Redux to manage state and optimize performance across user interactions
- Integrated an interactive waveform display for each track, enhancing the user experience by allowing real-time audio visualization

**Saigon-Lodgings** | (Javascript, Node.js React/Redux, PostgreSQL, Sequelize, Express, HTML, CSS) [Live](#) | [GitHub](#)

Modeled on Airbnb, this project provides a localized platform for users to discover and offer unique accommodation in Saigon.

- Developed the backend services using Node.js and Express, ensuring robust and scalable server-side functionality for Saigon-Lodgings
  - Utilized Sequelize for database management, streamline data operations and enhancing data integrity across platform
- 

## WORK EXPERIENCE

**Supervisor**

Oct 2019 – Oct 2023

Boiling Point Restaurant San Jose, CA

- Oversaw the activities of restaurant staff, ensuring smooth and efficient operations, providing high quality dining experience for customers
  - Resolved order issues and addressed customer inquiries promptly, ensuring a high level of service and maintaining customer loyalty.
- 

## EDUCATION

Full Stack Developer | Software Engineer

App Academy– 2024

Cybersecurity Analyst | SOC Analyst

SJSU Cyber Bootcamp – 2022
